It is with much sadness that we remember Pam Morey who passed away on 25 April 2024.

Pam was a Wounds Australia Board Director from 2019 to March 2024 and furthermore contributed to the business of the organisation through the following committees and roles over several years.

- Finance, Audit and Risk Committee
- Member Research Committee
- Board liaison to the Australian Health Research Alliance and WA Health Translation Network for the development of the *Australian Standards for Wound Prevention and Management* (2023)
- Wounds Australia representative for the World Union of Wound Healing Societies 2026 conference bid
- Representative to the Coalition of National Nursing Organisations
- Sub-Committee Aseptic Technique, 2013 – 2020 and a contributor to Consensus Document: *Application of Aseptic Technique in Wound Dressing Procedure* (2017, 2018, 2020)
- Past Editorial Board Member for *Wound Practice and Research*, the Australian Journal of Wound Management
- Australian Wound Management Association (AWMA) Restructure Committee 2011 – 2013
- Pan Pacific Pressure Alliance Guideline Committee for the 2011 guideline
- AWMA Treasurer, 2008 to 2012.

Prior to that Pam was a Foundation Member of the Burns and Plastic Surgical Nurses Association of Western Australia (1990 to 1995) where she filled roles as President and Secretary. In 1995, Pam was instrumental in organising the merging of this group with the relatively newly formed West Australian Wound Care Association (WAWCA, 1990), which later became amalgamated as the Australian Wound Management Association. In WAWCA she held positions of President, Vice-President, Treasurer and Education Officer

1997 to 2012. Pam surely epitomised the professional attributes, contributions and personal characteristics that exemplified, what it is to be a *Good Nurse*. She will be greatly missed and always remembered by those who had the privilege to work with her and call her friend.
